From: McCullough [kingstonmcc@comcast.net]**Sent:** Wednesday, August 08, 2007 11:29 AM**To:** Mayes-WebEmail**Subject:** Gold Canyon sewer rate increase

The commission you serve on recently granted a rate increase to the sewer company serving the Gold Canyon area where we live part of each year. I know you must be busy so I'll make this brief.

#1: the rate increase does seem extreme and I would have hoped it could have been phased in rather than the steep increase we've seen

#2: our other utilities (gas, water, power, cable, phone) can be turned off and on (or put into a vacation plan) as we arrive and depart Arizona – so how about the same for a sewer system or just base it on water usage which does go on during our absence but would be considerably less than the rate we are currently paying.

Thanks for your consideration of our concerns.
